

1. My family enjoy listening to the K-Love radio station - it has wonderfully music and it has local community events which pertain to my family.

2. If this station was displaced it would have a huge impact on our community. This station gives people in my community some encouragment and different ways to look at life.

3. It is in the best public interest to keep this station on the air. It gives encouragement to people, it changes peoples lives for the better. It informs people of events they can participate in. Good station - good stuff. Thank you.
